01 — LOGO

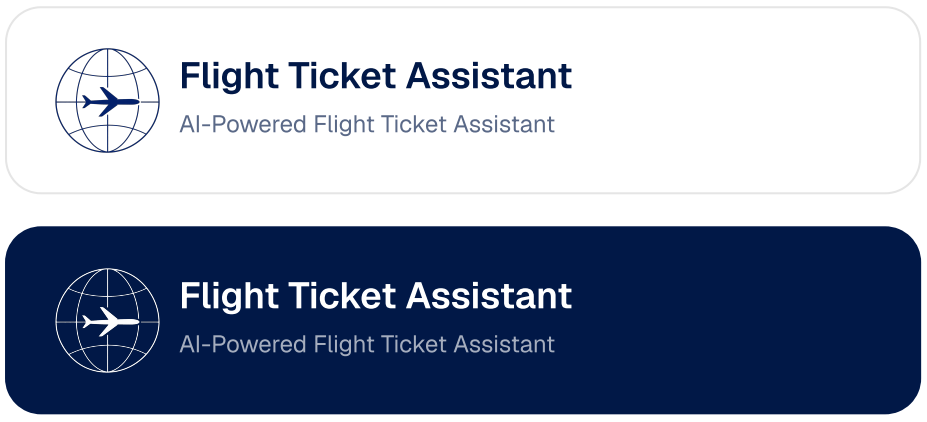

The Globe Mark

A wire-frame globe pierced by a jet silhouette — global reach, direct routes. The plane breaks the meridians, so always keep that negative space intact.

Colour variants

Lockups

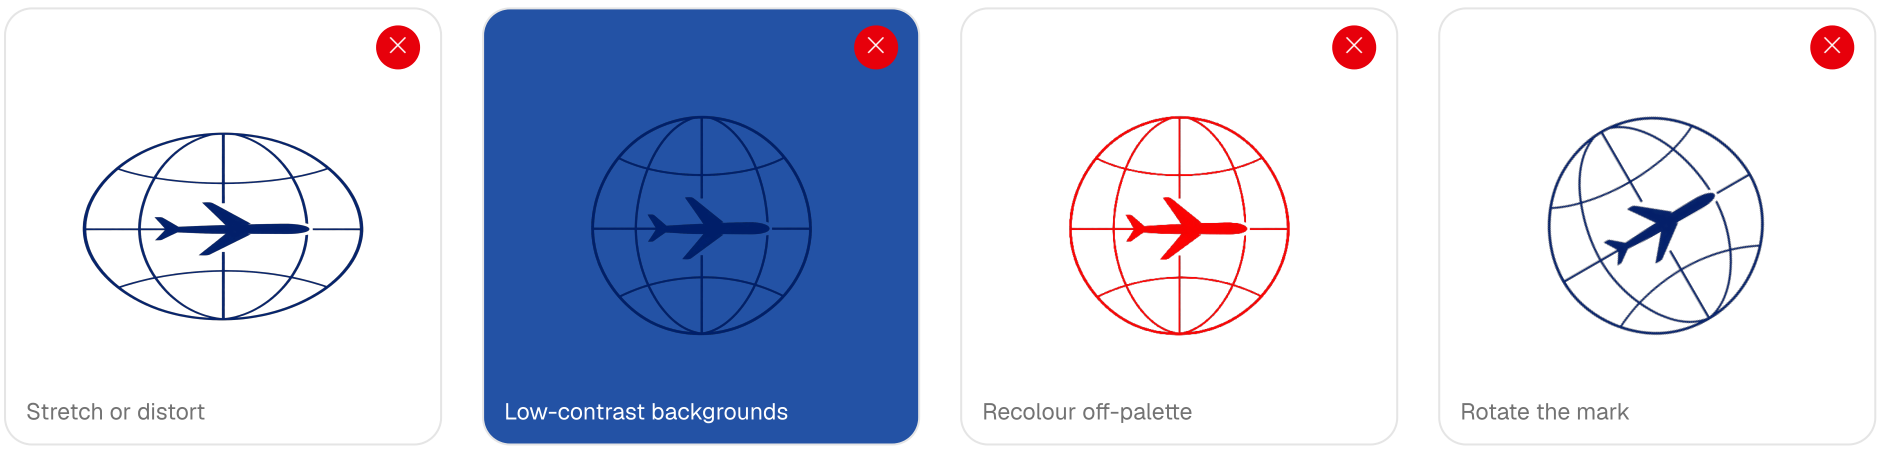

Wordmark: Geist Semibold 18px · tagline Geist Regular 12px muted. Mark-to-text gap 4–8px. Tagline hides below `sm`.

Clear space & minimum size

Keep clear space of **x = ¼ of the mark width** on all sides. Minimum size: **24px** digital (favicon uses the tile version), 40px in the header on mobile, 55px on desktop.

02 — COLOUR

Midnight & White

The UI is built on a single brand hue, defined in OKLCH. Navy carries the page; white cards carry content. Click any swatch to copy its hex.

06 — IMAGERY & ICONS

Illustration & iconography

Flat, friendly vector illustration with a cobalt accent. Icons are outlined Lucide at 2px stroke, inheriting `currentColor`.

Hero illustration

`hero-travel-planning.svg` · 500×500 viewBox · Freepik "storyset" style

Place on navy with ≥48px gap from text. Future illustrations should reuse the cobalt **#2352A5** accent so they sit naturally with the brand.

`Licence` Freepik assets require attribution (e.g. “Illustration by Storyset / Freepik”) unless you hold a Premium licence.
